Keeping business moving

Warehouse Range

Combilift's range of electric pedestrian stackers provides a safe option for lifting and handling in tight spaces. With lift capacities up to 2,500 kg, the versatility to work indoors or out, our products can cater for anything from small storerooms to medium-sized warehouses and specialist applications.

COMBI-PPT

High capacity powered pallet truck.

- Capacity - 3,000kg - 16,000kg
- Ideal for oversized, palletised loads

COMBI-OP

Order picker with safe and robust work platform for efficient processing of multiple orders and long loads.

- Capacity - 500kg
- Ideal for picking long loads in narrow aisles

COMBI-CS

Counterbalanced stacker with Combilift's patented multi position tiller arm.

- Capacity - 800kg - 2,500kg
- Ideal for palletised goods

COMBI-WR

The first purpose built pedestrian reach stacker with the ability to operate in a narrow aisle.

- Capacity - 1,500-2,500kg
- Ideal for palletised goods

COMBI-WR4

The first purpose built 4-way pedestrian reach stacker combining multi-directional travel.

- Capacity - 1,500kg - 2,500kg
- Ideal for palletised goods

Keeping Business Moving

Warehouse Range

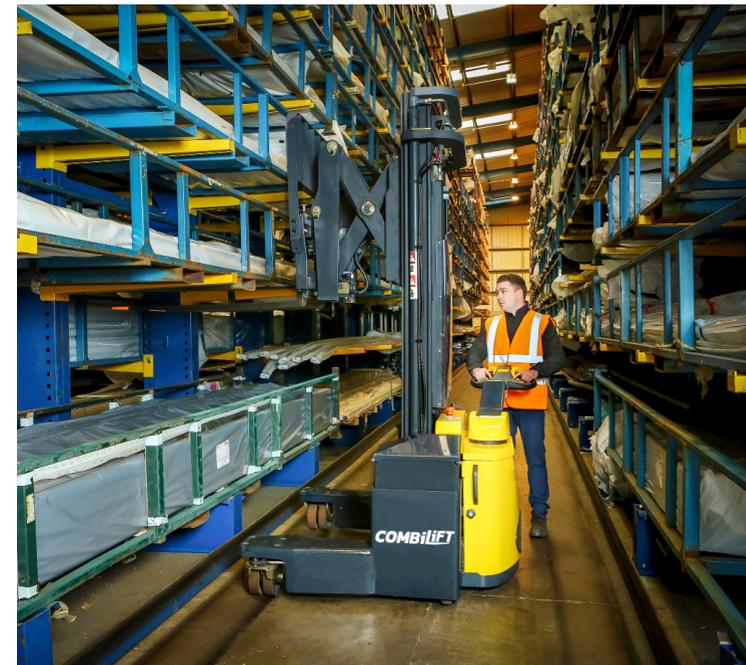

A masterpiece of innovation, combining the features of multiple machines and delivering the performance of a counterbalanced forklift and a VNA forklift.

Aisle-Master

Operating in aisles as narrow as 1.6 metres, this versatile articulated forklift offers up to 15 metres of vertical reach with left, right and front loading capability as well as virtually silent operation.

- Capacity - 1,500kg - 3,000kg
- Perfect for palletised goods, warehouse and logistics

Keeping Business Moving

Combilift's range of multi-directional, articulated, pedestrian forklifts as well as straddle carriers can be customised according to your application and preferred fuel type, electric, diesel or LPG. With the ability to work both indoors and out, the need for multiple trucks is eliminated, which optimises fleet size, increases storage space, enhances safety and improves overall efficiency.

Combilift's innovative warehouse optimisation solutions can:

- Increase indoor and outdoor storage capacity without the need for additional warehousing
- Maximise safety when handling materials
- Increase efficiency by enabling faster and more accurate handling
- Minimise or eliminate product damage
- Reduce fleet size through innovative, multi-purpose design
- Provide considerable cost savings across the life of the truck
- Optimise operator comfort with bespoke cab design
- Effortlessly handle loads from 1 to 100 tonnes
- Available in Electric, Diesel and LPG

Sideloader Forklifts

Built to withstand the demands of long load lifting, Combilift's sideloader forklifts deliver robust performance and exceptional manoeuvrability. With lift capacity ranging from 2,500 kg to 8000kg, plus stand-on options for very narrow aisle systems, the versatility of these machines is second to none.

COMBI-SL

Multi-directional side-loader forklift.

- Capacity - 4,500kg - 6,000kg
- Ideal for long loads

COMBI-4WSL

Four-wheel sideloader forklift for long and bulky loads.

- Capacity - 5,000kg - 6,000kg
- Ideal for long loads over longer distances

COMBI-ST

Multi-directional, stand-on forklift.

- Capacity - 2,500kg - 4,000kg
- Ideal for long loads

Long Load Forklifts

The hardworking, versatile design of Combilift's multi-directional range combines the advantages of a counterbalanced forklift, side loader and very narrow aisle (VNA) truck in one vehicle, for a complete solution with electric, diesel or LPG engines.

C-SERIES

Original IC engine-powered all-wheel-drive multi-directional forklift.

- Capacity - 2,500kg - 25,000kg
- Ideal for long loads

COMBI-CB

Innovative combi-CB multi-directional counterbalance forklift truck.

- Capacity - 2,500kg - 4,000kg
- Perfect for palletised and long loads

Container Loaders

Developed to significantly speed up the loading of containers by while increasing safety to operators and minimising damage to the product.

COMBI-CSS

Safe, fast and easy to operate, Combilift's new container loaders are cost-effective container loading solutions that can load a 40-foot container in as little as six minutes.

- Capacity - 30,000kg
- Perfect for loading any material into containers

Straddle Carriers

Combilift's range of straddle carriers and mobile gantry provide safe, efficient solutions for even the most extreme load handling situations.

COMBI-SC

Straddle carrier for moving containers and oversized loads.

- Capacity - 20,000kg - 100,000kg
- Types - Standard Chain, Standard Telescopic, Toplift Telescopic and Special Application
- Ideal for containers and oversized loads

COMBI-MG

This mobile gantry is the perfect solution for handling and conveying extremely large loads.

- Capacity - 40,000kg
- Ideal for long and out of gauge loads

Poultry & Agricultural Forklifts

Designed specifically to meet the harsh demands of the poultry industry, but its impressive handling and robust construction make it a valuable workhorse for any agricultural business.

COMBI-RT

Rough terrain and live feed forklift.

- Capacity - 1,500kg - 3,500kg
- Ideal for poultry, agricultural and rough terrain environments
